## SUMMARY

Front-end developer and creative technologist with experience in JavaScript, React, and Python. Skilled at building interactive web projects, designing user-centered interfaces, and coordinating cross-functional teams. Strong creative background in digital media and community engagement, with a focus on interactive entertainment and game development.

## EXPERIENCE

### **Skating Polly – Co-owner**

October 2009 - Present

- Directed creative content production (video, audio, and digital campaigns) with measurable engagement growth across YouTube, TikTok, and Spotify.
- Coordinated cross-functional teams (bandmates, booking agents, designers, venues) mirroring multi-department workflows in media.
- Developed targeted ad campaigns using Meta Ads, optimizing creative strategy for audience expansion.
- Maintained consistent production timelines and delivered high-quality content under pressure.

### **MPM Talent – Archivist**

July 2024 - Present

- Organized and maintained complex data archives, ensuring accessibility and accuracy.
- Developed communication skills through clear documentation and archival standards.

### **Steller Legal Group – Assistant Office Manager**

January 2019 - June 2024

- Strengthened technical fluency through QuickBooks, Clio, Google Sheets (relevant to structured data management and workflow coordination).
- Managed detailed record-keeping, deadlines, and multi-party communication.

## PROJECTS

- **Bird-Match (2025):** Designed and developed an interactive JavaScript quiz game testing bird identification. Implemented scoring logic, responsive design, and deployed as a standalone web app.
- **Portfolio Website (2025):** Created personal portfolio site hosted on Netlify, showcasing projects and technical skills. Designed UI/UX for clear navigation and responsiveness.
- **Band Website Development (2024):** Built and maintain official band website with HTML, CSS, and JavaScript, integrating multimedia and e-commerce features.

## SKILLS

- **Tech Skills:** Python, JavaScript, React, HTML, CSS, Git, Netlify, npm/Node.js
- **Creative Production:** Adobe Photoshop, Procreate, Figma; video/photo production.
- **Digital Media Strategy:** Meta Ads, YouTube Studio, Spotify for Artists, TikTok.
- **Project & Team Coordination:** Scheduling, logistics, collaboration, deadline management.
